LET'S STAY HEALTHY!

Wonderscope is dedicated to ensuring all who come to visit us not only have fun, but also stay safe and healthy! That’s why we adhere to the following measures:

- All surfaces within the Wonderscope building are always professionally cleaned with hospital grade cleansers seven days a week.
- Hand sanitation stations are available throughout the museum.
- Wonderscope staff and volunteers are required to remain at home if they are ill.
- In addition to these standard practices, we have been taking further precautions during this season of colds, flu, and viruses to thoroughly clean loose objects and frequently touched surfaces even more frequently.

Visitors can take measures of their own to protect their health, including the following:

- If you or your children are ill, wait until you’re well to come in and play.
- Remind your children to always cover their mouths with their sleeves when they sneeze or cough; and if they use a tissue, to please throw it away immediately.
- Encourage effective handwashing: washing often with soap and water for at least 20 seconds. (Sing the "Happy Birthday" song twice.) If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- If you have questions or concerns about Coronavirus, visit the [CDC website](https://www.cdc.gov).

Rest assured, we here at Wonderscope take seriously our responsibility to provide a safe and clean environment where you and your children can enjoy learning, playing, and growing!
